#### **National Priorities Addressed**

Issue Questions		
Clean and Abundant Water: Water Quality - Will the proposed project assist the producer to:		
1. a. Meet regulatory requirements relating to animal feeding operations, or proactively avoid the need for regulatory measures?		
1. b. Reduce sediment, nutrients or pesticides from agricultural operations located within a field that adjoins a designated impaired water body?		
1. c. Reduce sediment, nutrients or pesticides from agricultural operations located within a field that adjoins a water body?		
Clean and Abundant Water: Water Conservation - Will the proposed project assist the producer to:		
2. a. Increase groundwater recharge in identified groundwater depletion areas (http://water.usgs.gov/ogw/rasa/html/TOC.html)?		
2. b. Conserve water from irrigation system improvements and result in estimated water savings of at least 5% and saved water will be available for other beneficial uses?	Yes O or No O	
2. c. Conserve water in an area where the applicant participates in a geographically established or watershed-wide project?	Yes O or No O	
Clean Air: Treatment of Air Quality from Agricultural Sources - Will the proposed project assist the producer to:		
3. a. Meet regulatory requirements relating to air quality or proactively avoid the need for regulatory measures?		
3. b. Reduce green house gases such as methane, nitrous oxide, and volatile organic compounds (VOC)?	Yes O or No O	
3. c. Increase carbon sequestration?		
High Quality, Productive Soils Erosion Reduction - Will the proposed project assist the producer to:		
4. a. Reduce erosion to tolerable limits (Soil "T")?		
Healthy Plant and Animal Communities Wildlife Habitat Conservation - Will the proposed project assist the producer to:		
5. a. Benefit threatened and endangered, at-risk, candidate, or species of concern as identified in a State wildlife plan?		
5. b. Retain wildlife and plant benefits on land exiting the Conservation Reserve Program (CRP)?	Yes O or No O	
High Quality, Productive Soils, Healthy Plant and Animal Communities: Special Environmental Efforts/Initiatives - Will the proposed project assist the producer to:		
6. a. Eradicate or control noxious or invasive species?		
6. b. Increase, improve or establish pollinator habitat?		
6. c. Implement precision agricultural methods?		
6. d. Properly dispose of animal carcasses?		
6. e. Implement an Integrated Pest Management plan?		
Energy Conservation – Will the proposed project assist the producer to:		
7. a. Reduce energy consumption on the agricultural operation?		
7. b. Increase on-farm energy efficiency with more efficient equipment?		

7. c. Assist in implementing energy conservation measures that reduce emissions from GHGs and air pollutants?	
Business Lines - Conservation Implementation Additional Ranking Considerations - Will the proposed project result in:	
8. a. Implementation of all planned conservation practices within three years of contract obligation?	
8. b. Improvement of existing conservation practices or conservation systems already in place at the time the application is accepted, or will complete an existing conservation system?	
Does the applicant meet the following conditions:	
9. a. If the applicant has an existing EQIP contract, has it been, and is it now, on schedule and in full compliance?	
9. b. Did the applicant successfully complete any past contract(s) in full compliance?	
9. c. Is this the applicant's first EQIP application?	

## **State Issues Addressed**

Issue Questions	
1. Will the project reduce the amount of nutrients/pesticides/salt/selenium or other pollutants entering ground or surface waters?	
2. Will the planned practice(s) promote water conservation on the contracted acres?	Yes O or No O
3. Does the project increase the diversity of desirable plants on grazing lands?	
4. Does the project improve the health of riparian and/or wetland areas?	
5. Does the project improve habitat for a wildlife species currently categorized as a State or Federal T&E species, Federal Candidate or Proposed species, or State Species of Concern?	Yes O or No O
6. Will the planned practice(s) reduce irrigation induced or streambank erosion?	Yes O or No O

#### **Local Issues Addressed**

Issue Questions		
Forest/Woodland management plan.		
1. At the time of ranking, does the applicant have a forest management plan approved by a qualified forester, TSP certified in forestry planning, or NRCS person certified in planning forest land that addresses the concerns the application is for?		
Projects involving multiple landowners with adjoining lands.		
2. Is the proposed project and practices that will be contracted part of an adjoining multi-landowner (private or public) project?		
Colorado State Forest Service (CSFS) Statewide Forest Resource Assessment. (Answer only one of questions 3a3c.if appropriate)		
3. a. Is the proposed project in a Very High Value 12 digit HUC (6th level watershed) per the CSFS Statewide Forest Resource Assessment Final Theme Analysis?		
3. b. Is the proposed project in a High Value 12 digit HUC (6th level watershed) per the CSFS Statewide Forest Resource Assessment Final Theme Analysis?	Yes O or No O	
3. c. Is the proposed project in a Moderate to Low Value 12 digit HUC (6th level watershed) per the CSFS Statewide Forest Resource Assessment Final Theme Analysis?		
Fire Regime Class according to Landfire fire regime data. (Answer only one of questions 4a4c.if appropriate)		
4. a. Is the proposed project in a predominantly Fire Regime Condition Class III (high departure) area?	Yes O or No O	
4. b. Is the proposed project in a predominantly Fire Regime Condition Class II (moderate departure) area?	Yes O or No O	
4. c. Is the proposed project in a predominantly Fire Regime Condition Class I (low departure) area?		
Forest type and project objectives. (Answer only one of questions 5a5e.as appropriate)		
5. a. Is the proposed projects primary objective to improve age class, size class, and/or species diversity of mixed conifer, ponderosa pine or Douglas fir forest stands?	Yes O or No O	
5. b. Is the proposed projects primary objective to stimulate rejeneration of declining aspen stands?	Yes O or No O	

5. c.Is the proposed projects projects primary objective to remove live lodgepole pine to or patch-cut methods to facilitate forest regeneration?	rees with clear-cut Yes O or No O
5. d. Is the proposed projects primary objective to improve age class, size class, and spe pinyon/juniper stands on woodland sites?	ecies diversity of Yes O or No O
5. e. Is the proposed projects primary objective to conduct salvage and sanitation harvesting to remove dead, dying, or imminently dead trees?	
Erosion concerns.	
<ol><li>Will the proposed contract include practices that address erosion and water quality co with forest harvest such as re-seeding, slash treatment, water bars, buffers etc.</li></ol>	oncerns associated Yes O or No O
Management of grazable forests.	
7. If the treatment area is grazable forest, will it be grazed according to management pregrazing (code 328) funded with this contract? (Answer no if the treatment area is not grazable forest, will it be grazed according to management pregrazing (code 328) funded with this contract?
